## ABOUT SEA-TVET CONSORTIUM

The establishment of the “**SEA-TVET Consortium**” was one of the recommended strategies from the TVET High Officials from the Southeast Asian countries to promote TVET student and staff exchange, which shall include cross-country industrial attachment and internship programmes. In addition, the SEA-TVET Consortium will formalise the partnership among TVET institutions and industry sectors, and operationalise SEA-TVET activities, implemented by SEAMEO in order to achieve the following goals.

1. To leverage the standard and competency of TVET in Southeast Asia through internationalisation and harmonisation;
2. To promote and develop the curriculum harmonisation, and internationalisation of study programmes through lecturer/student exchange, joint research programmes and industrial linkages; and
3. To create a sustainable networking platform among TVET leaders and institutions in Southeast Asia and industry, as well as other related development agencies and industry sectors.

SEA-TVET Consortium comprises TVET institutions in Southeast Asian countries that agree to work together in harmonising and internationalising their programmes through curriculum harmonisation, students and staff exchange, and industrial attachment, and resource sharing.
